

# Tech To Country

## Program Overview

**Tech To Country** is a proud initiative of **G1 Asset Management** that empowers Australian enterprise and government to donate end-of-use IT assets to indigenous communities while maintaining complete data security and compliance to Australian ISM controls.

### Secure and Compliant IT Asset Disposal

- ✓ ISO Accredited
- ✓ AU/ISM Compliant

- Asset Collection Services
- Secure Data Destruction
- Testing and Asset Reporting
- Erasure Certificates

### Trusted, Secure Disposal by G1 Asset Management

Ensure compliance and data security through G1's ISO accredited IT Asset disposal solution, trusted by Australian government and enterprise.

### Refurbishing and Windows 10 Deployment

- Assets Refurbished
- Genuine Windows 10 Installed (Microsoft Registered Refurbisher Program)
- Safely Packaged For Distribution

### Refurbishment and Genuine Windows 10 Deployment

Assets are professionally refurbished, with **Genuine Windows 10** re-deployed through **Microsoft's Registered Refurbisher Program**.

### Community Distribution and Hardware Support

- Assets Distributed To Indigenous Community Groups
- 12 Months Hardware Support

### Transparent Social Benefit To Indigenous Communities

Promote direct social benefit through targeted and supported distribution of IT hardware to indigenous communities.

Transparent distribution reports and statistics to support your RAP or social benefit targets.
